Overview

Multiple Custom Fee assists stores by adding additional services that the stores provide. Multiple Custom fee extension along with flexible customize-ability helps businesses fulfill the buyer's needs and wants. By providing detailed information about the product and service additional fee, Multiple Custom Fee developed for Magento 2 is a customer experience enhancer suitable for any type of online stores. If store owners want to add fees for any services in their store like gift wrap, donation, etc, they can not be configured. Developed by Zestard Technology, Multiple Custom Fee module allows shoppers to add whatever fees they want and display them on their Checkout and Shopping Cart pages.

Zestard's Multiple Custom Fee extension is relevant for sites that house a separate retail department, customer support team, logistics team, webmaster support, multiple branch-wise support, and head office support.

The extension gives you the ability to set a single or multiple Custom Fee from the backend..

Main Features

- Able to add limitless custom fees.
- Able to use payment methods or shipping methods as conditions to apply rules for custom fees.
- Auto-applying additional fee or manual method.
- Have several types to calculate custom fee: fixed amount or percentage.

- View in various positions: Shipment/Credit memo/Order, email/PDF, Backend and Frontend.
- Compatible with One Step Checkout, PDF invoice, Layered Navigation Ultimate .

Reasons to choose Zestard's Multiple Custom Fee?

Easy to configure & use	Add single multiple custom fee easily from the admin	Ability to show custom fee at cart and checkout page at frontend
Flexible settings	Set the multiple custom fee Rules Conditions easily	Show the custom fee at Invoice, Credit Memo, Order Details at admin/frontend

Installation Guide

Once you have purchased & downloaded our extension follow the below steps to install the extension. The easiest way to install a Magento 2 extension is by using SFTP or FTP. To do this, first, download our Multiple Custom Fee module and follow the below steps.

In short, for Professionals or Techie Person

1. Unzip the extension.
2. Login to your root directory via FTP or SFTP.
3. Go to your remote directory app/code/
4. Create directory Zestardtech and under that create directory **Customfee**.
5. Now upload all the unzipped code into the **Customfee** directory.
6. Then open your SSH or Terminal.
7. Go to your root directory and RUN below 5 commands step by step:
 - `php -f bin/magento module:enable Zestardtech_Customfee --clear-static-content`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy -f`
 - `php bin/magento cache:clean`
8. If you didn't get any error during the commands execution process then our extension is successfully installed in your store.

Detailed Installation Instructions

Step 1: Connect to FTP and upload the unzip directory.

- Connect to your site using FTP or SFTP. Go to your remote directory `app/code/`
- Create directory **Zestardtech** and under that create directory **Customfee**.
Now upload all the unzipped code into this directory.

Step 2: Run Commands

- Open your SSH or Terminal.
- Go to your root directory and RUN below 5 commands step by step:
 - `php -f bin/magento module:enable Zestardtech_Customfee --clear-static-content`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy -f`
 - `php bin/magento cache:clean`
- If you didn't get any error during the commands execution process then our extension is successfully installed in your store.

Step 3: To confirm Installation and activation.

- To complete the installation you need to log out of your Magento Admin and login back.
- Open your SSH or Terminal and run this command `php bin/magento module:status Zestardtech_Customfee` and if you get Output as **Module is enabled** then our extension is installed properly in your store.

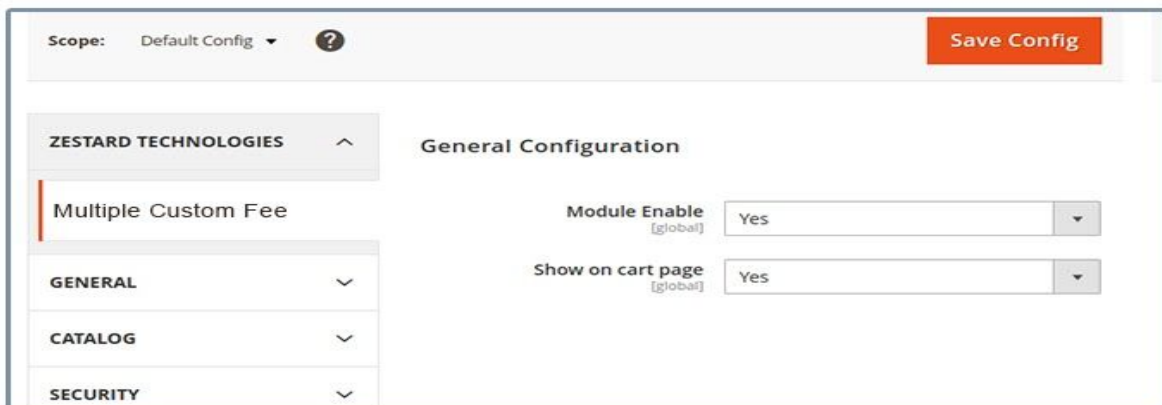

To Note: If you face any error during this process then please either share the screenshots or share credentials of your store at our email id **support@zestard.com** and will help you install the extension properly.

User Guide

How to Configure Multiple Custom Fee Extension?

After installing the extension just follow the below steps to set up the theme in your store.

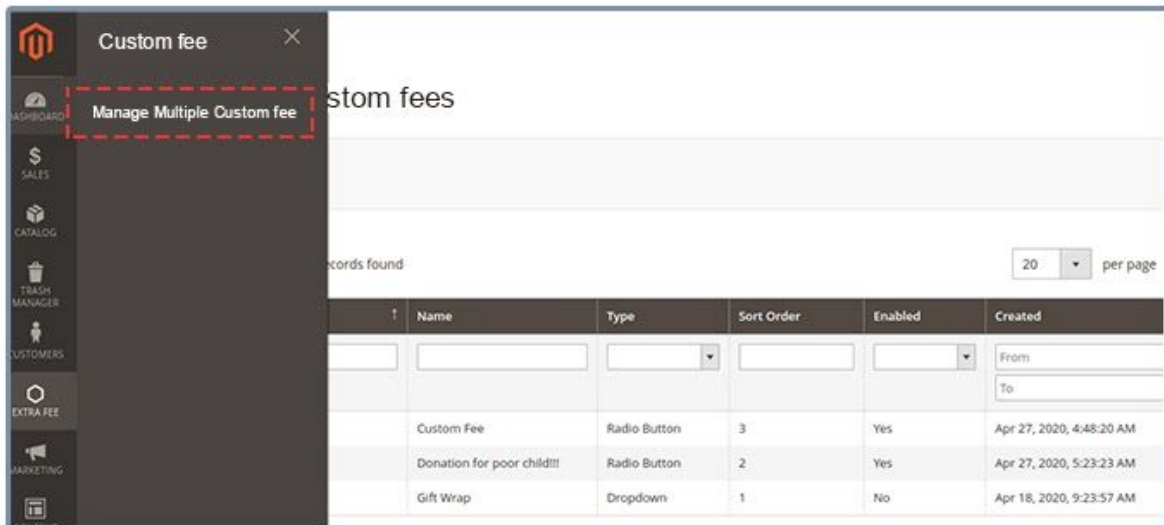

1. General Configuration for setting up the Multiple Custom Fee extension.
 - **Enable Module:** Select “Yes” to enable the extension.
 - **Show on cart page :** Select “Yes” to display at cart page at the frontend.

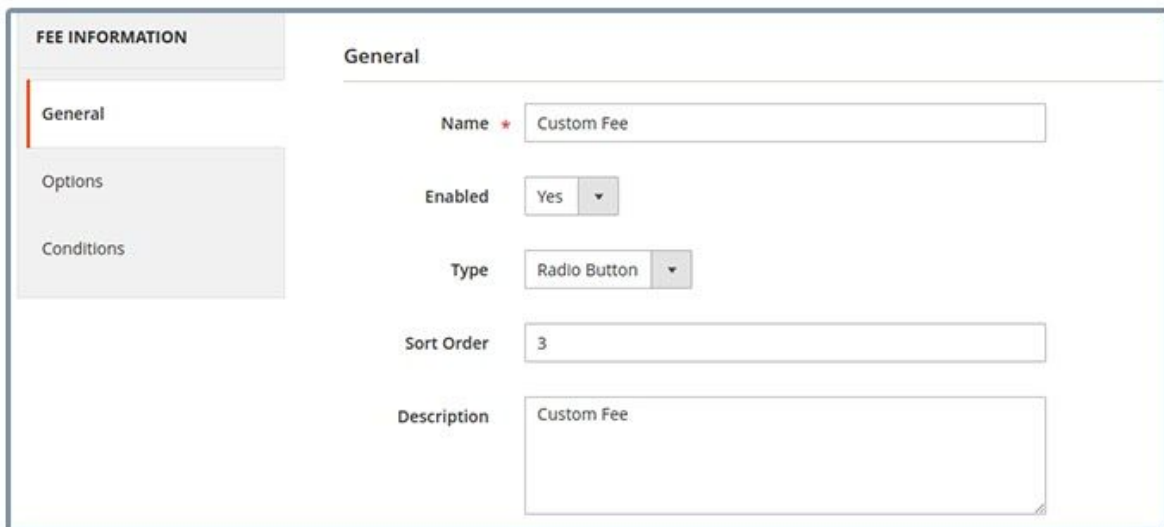

The screenshot shows the configuration page for the Multiple Custom Fee extension. At the top, there is a 'Scope' dropdown set to 'Default Config' and a 'Save Config' button. The left sidebar shows the navigation menu with 'ZESTARD TECHNOLOGIES' expanded to show 'Multiple Custom Fee', 'GENERAL', 'CATALOG', and 'SECURITY'. The main content area is titled 'General Configuration' and contains two settings: 'Module Enable [global]' and 'Show on cart page [global]', both set to 'Yes'.

Setting	Value
Module Enable [global]	Yes
Show on cart page [global]	Yes

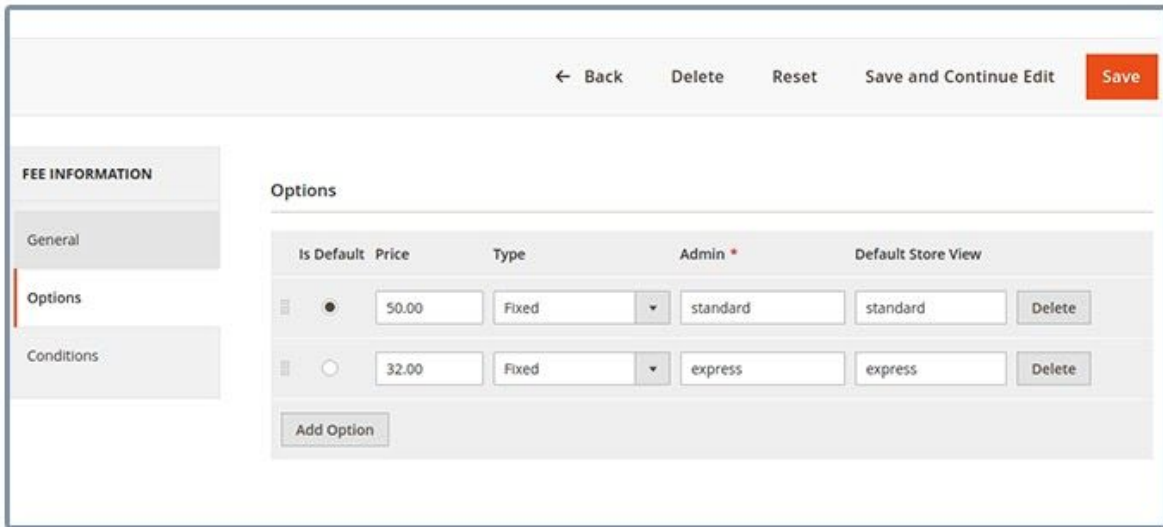

- To add the Multiple Custom Fee from the admin go to Dashboard->Custom Fee-> Manage Custom Fee. From here add the new custom fee.

- To Add custom fee general information.

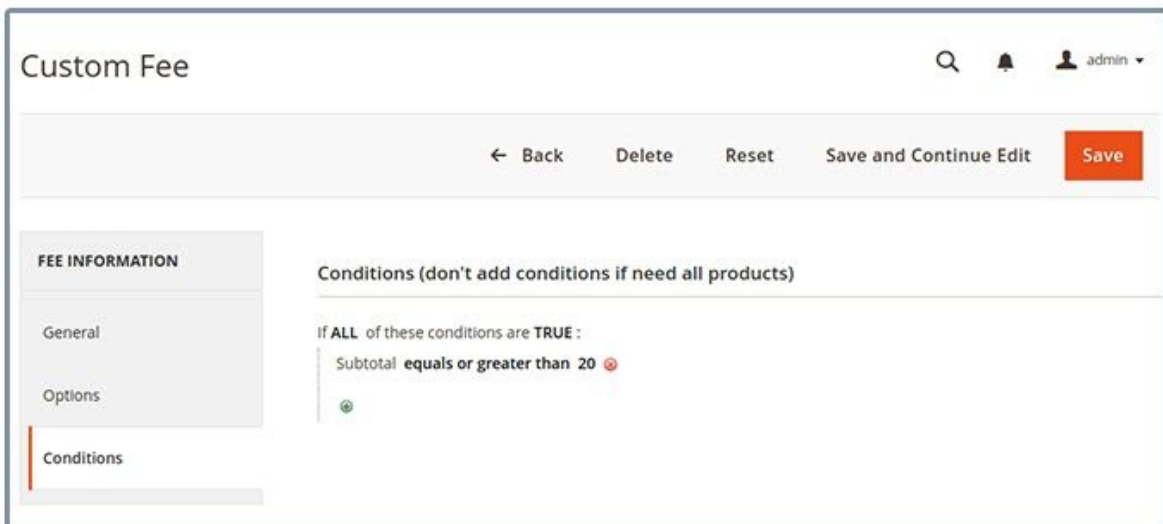

4. To add the custom fee options.

Is Default	Price	Type	Admin *	Default Store View	
<input checked="" type="radio"/>	50.00	Fixed	standard	standard	Delete
<input type="radio"/>	32.00	Fixed	express	express	Delete

Add Option

5. To add custom fee conditions.

Custom Fee

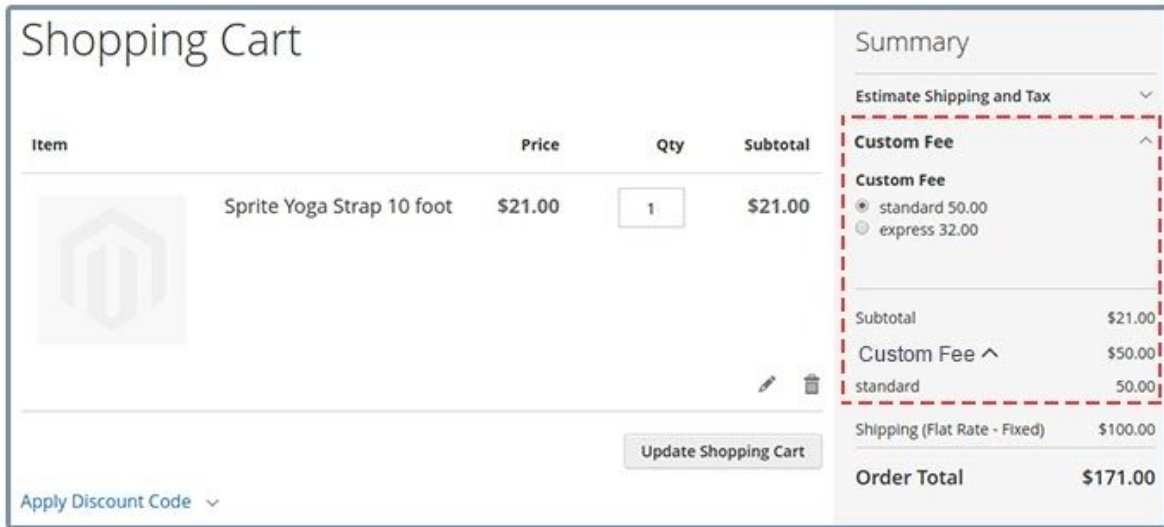

Conditions (don't add conditions if need all products)

If ALL of these conditions are TRUE :

Subtotal equals or greater than 20

After setting up all things from the admin then the custom fee will appear at the frontend.

6. Appear at the Shopping cart at the frontend.

Shopping Cart

Item	Price	Qty	Subtotal
 Sprite Yoga Strap 10 foot	\$21.00	1	\$21.00
