## Overview

Magento 2 Multiple Flat Rate Shipping : Multiple Flat Rate Shipping Extension that helps you create & configure custom flat rate shipping methods based on different conditions and pricing. It is a must have for many online stores, especially international brands which deliver their products worldwide. Offering buyers different flat rates to select makes shopping easier and convenient for customers. Besides, this also helps stores manage shipping methods better.

## Main Features

- Add up to 10 Flat Rates.
- Show shipping methods based on minimum & maximum order subtotal.
- Show shipping methods based on country specific.
- Show shipping methods based on Per Order or Per Item.
- Calculate handling fee based on Fixed, Percent or Fixed Per Item.
- Displayed appropriate message when shipping method not available.
- Enable/Disable Individual Flat Rates

## Installation Guide

Once you have purchased & downloaded our extension follow the below steps to install the extension. The easiest way to install a Magento 2 extension is by using SFTP or FTP. To do this, first, download our Multiple Flat Rate module and follow the below steps.

### In short, for Professionals or Techie Person

1. Unzip the extension.
2. Login to your root directory via FTP or SFTP.
3. Go to your remote directory app/code/
4. Create directory Zestardtech and under that create subdirectory **Flatshipping**.
5. Now upload all the unzipped code into the **Flatshipping** directory.
6. Then open your SSH or Terminal.

7. Go to your root directory and RUN below 5 commands step by step :

- `php -f bin/magento module:enable Zestardtech_Flatshipping --clear-static-content`
- `php bin/magento setup:upgrade`
- `php bin/magento setup:di:compile`
- `php bin/magento setup:static-content:deploy -f`
- `php bin/magento cache:clean`

8. If you didn't get any error during the commands execution process then our extension is successfully installed in your store.

## Detailed Installation Instructions

### Step 1: Connect to FTP and upload the unzip directory.

- Connect to your site using FTP or SFTP. Go to your remote directory `app/code/`
- Create directory `Zestardtech` and under that create subdirectory `Flatshipping`. Now upload all the unzipped code into this directory.

### Step 2: Run Commands

- Open your SSH or Terminal.
- Go to your root directory and RUN below 5 commands step by step:
  - `php -f bin/magento module:enable Zestardtech_Flatshipping --clear-static-content`
  - `php bin/magento setup:upgrade`
  - `php bin/magento setup:di:compile`
  - `php bin/magento setup:static-content:deploy -f`

- php bin/magento cache:clean
- If you didn't get any error during the commands execution process then our extension is successfully installed in your store.

### **Step 3: To confirm Installation and activation.**

- To complete the installation you need to log out of your Magento Admin and login back.
- Open your SSH or Terminal and run this command **php bin/magento module:status Zestardtech\_Flatshipping** and if you get Output as **Module is enabled** then our extension is installed properly in your store.

**To Note:** If you face any error during this process then please either share the screenshots or share credentials of your store at our email id **support@zestard.com** and will help you install the extension properly.

## User Guide
