Overview

As the name itself suggests, Zestard's "Product 360 Degree View Extension" allows you to illustrate the product details in the best possible way. This extension enables you to spin the product image 360° to give a thorough detail of the products. The product image can be played in loop for a deep look.

It shows a single image at a time that makes it more efficient and helps the page load faster.

The extension can be used for these industries but not limited to:

1. Automobile
2. Electronics
3. Smartphones
4. Furniture
5. Jewelry
6. Clothing
7. Real Estate

Main Features

- View image in 360 degree using navigation left-right keys and drag by doing the same.
- Full screen for 360 Degree view.
- Auto play enable / disable from admin.
- Invert 360 Degree view enable / disable from admin.
- Easy to upload images from product edit page.
- Easy to manage events from back end.
- It can be managed manually as well.

Reasons to choose Zestard's Product 360 Degree View?

Easy to configure & use	User can view products in 360 degree view	Ability to set auto play 360 degree view in admin
Flexible settings	Easily upload product 360 degree view images from product edit page	

Installation Guide

Once you have purchased & downloaded our extension follow the below steps to install the extension. The easiest way to install a Magento 2 extension is by using SFTP or FTP. To do this, first, download our Product 360 Degree module and follow the below steps.

In short, for Professionals or Techie Person

1. Unzip the extension.
2. Login to your root directory via FTP or SFTP.
3. Go to your remote directory 'Root Directory'.
4. Now upload all the unzipped code into the 'Root Directory'.
5. Then open your SSH or Terminal.
6. Go to your root directory and RUN below 5 commands step by step:
 - `php -f bin/magento module:enable Zestardtech_ThreeSixtyDegree --clear-static-content`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy -f`
 - `php bin/magento cache:clean`
7. If you didn't get any error during the commands execution process then our extension is successfully installed in your store.

Detailed Installation Instructions

Step 1: Connect to FTP and upload the unzip directory.

- Connect to your site using FTP or SFTP. Go to your remote directory 'Root Directory'
- Now upload all the unzipped code into 'Root' directory.

Step 2: Run Commands

- Open your SSH or Terminal.
- Go to your root directory and RUN below 5 commands step by step:
 - `php -f bin/magento module:enable Zestardtech_ThreeSixtyDegree --clear-static-content`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy -f`
 - `php bin/magento cache:clean`
- If you didn't get any error during the commands execution process then our extension is successfully installed in your store.

Step 3: To confirm Installation and activation.

- To complete the installation you need to log out of your Magento Admin and login back.
- Open your SSH or Terminal and run this command **php bin/magento module:status Zestardtech_ThreeSixtyDegree** and if you get Output as **Module is enabled** then our extension is installed properly in your store.

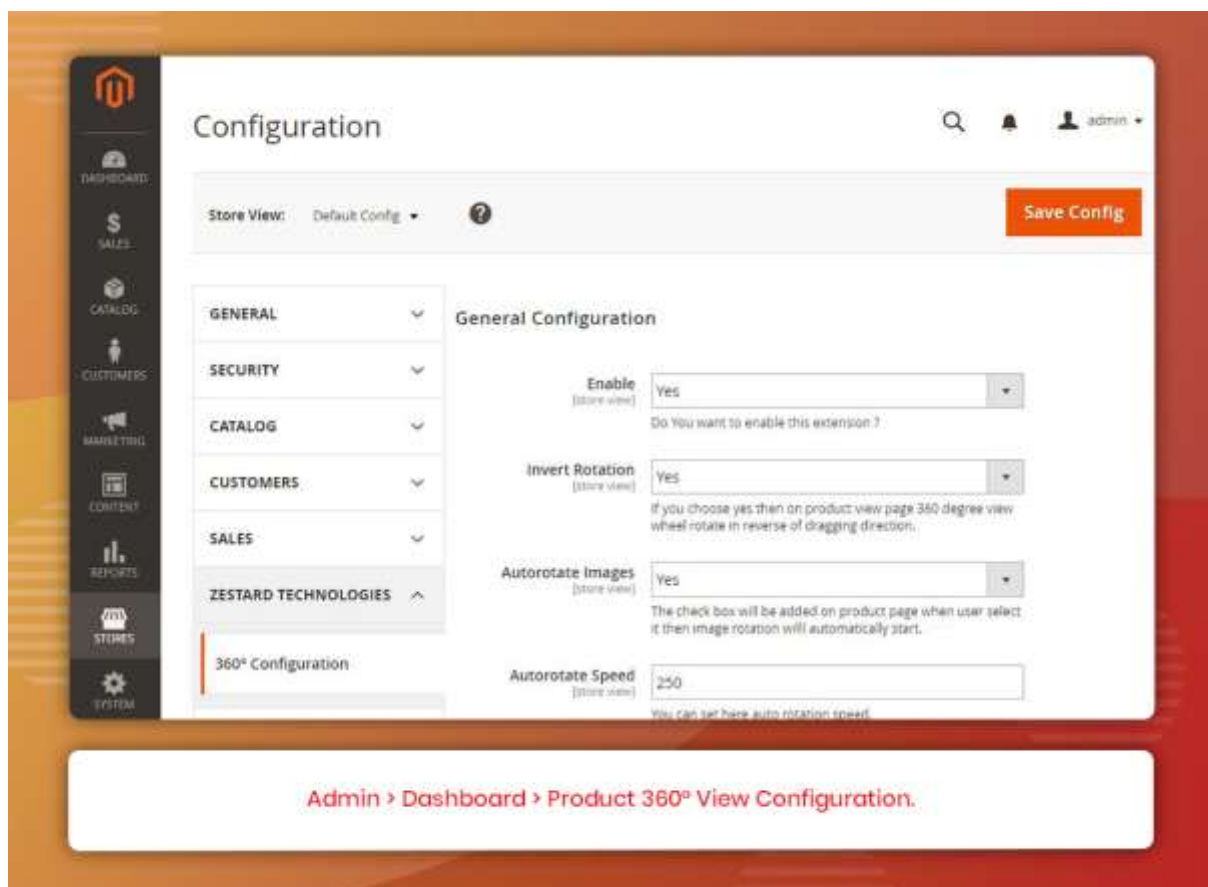

To Note: If you face any error during this process then please either share the screenshots or share credentials of your store at our email id support@zestard.com and will help you install the extension properly.

User Guide
