Overview

Magento 2 SiteMaintenance : Magento 2 SiteMaintenance extension helps you notify customers that your site is currently under maintenance or upgradation, and prepare for upcoming products/ services. Thanks to the SiteMaintenance module, store visitors are well informed about maintenance progress as well as the launch date with comfort.

Main Features

- Maintenance Page Redirection.
- Create a custom maintenance mode message, including Static Block.
- Enable/Disable Newsletter Subscription and Add Custom Text of NewsLetter Subscription.
- Subscribe to maintain customers' connection.
- Can upload Logo for Maintenance Page.
- Update Logo Height and Width from Admin Panel.
- Can set Page Title.
- Create and add CMS Static Block.
- Add Custom CSS.
- Select Date/Time by DateTime picker.
- Can also SiteMaintenance text.

Installation Guide

Once you have purchased & downloaded our extension follow the below steps to install the extension. The easiest way to install a Magento 2 extension is by using SFTP or FTP. To do this, first, download our Sitemaintenance module and follow the below steps.

In short, for Professionals or Techie Person

1. Unzip the extension.
2. Login to your root directory via FTP or SFTP.
3. Go to your remote directory app/code/
4. Create directory Zestardtech and under that create subdirectory **Sitemaintenance**.
5. Now upload all the unzipped code into the **Sitemaintenance** directory.
6. Then open your SSH or Terminal.
7. Go to your root directory and RUN below 5 commands step by step:
 - `php -f bin/magento module:enable Zestardtech_Sitemaintenance --clear-static-content`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy -f`
 - `php bin/magento cache:clean`
8. If you didn't get any error during the commands execution process then our extension is successfully installed in your store.

Detailed Installation Instructions

Step 1: Connect to FTP and upload the unzip directory.

- Connect to your site using FTP or SFTP. Go to your remote directory app/code/
- Create directory Zestardtech and under that create subdirectory Sitemaintenance. Now upload all the unzipped code into this directory.

Step 2: Run Commands

- Open your SSH or Terminal.
- Go to your root directory and RUN below 5 commands step by step:
 - `php -f bin/magento module:enable Zestardtech_Sitemaintenance --clear-static-content`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy -f`
 - `php bin/magento cache:clean`
- If you didn't get any error during the commands execution process then our extension is successfully installed in your store.

Step 3: To confirm Installation and activation.

- To complete the installation you need to log out of your Magento Admin and login back.
- Open your SSH or Terminal and run this command **php bin/magento module:status Zestardtech_Sitemaintenance** and if you get Output as **Module is enabled** then our extension is installed properly in your store.

To Note: If you face any error during this process then please either share the screenshots or share credentials of your store at our email id **support@zestard.com** and will help you install the extension properly.

User Guide
